

KEY HIGHLIGHTS

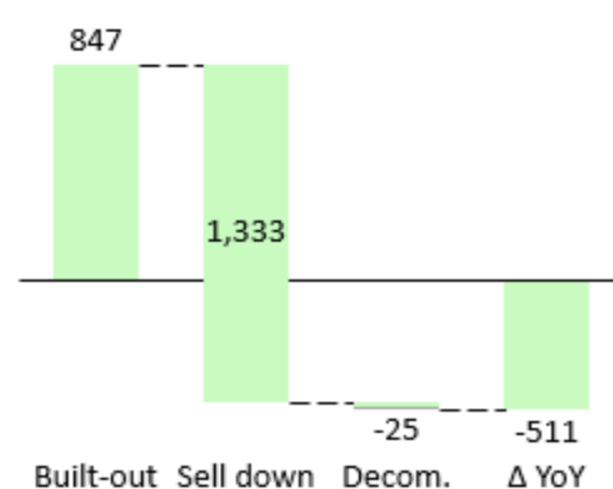

- Installed capacity reached 26.8 GW, of which 74% from renewable sources. This reflects 847 MW of wind capacity added over the last 12 months, while the execution of our asset rotation strategy resulted in the deconsolidation of 1.3 GW of wind capacity. **As of end of Jun-20, we had 2.0 GW of wind and solar projects under construction, twice as much the 1.0 GW under construction as of Mar-20, reflecting increasing pace of activity.**
- Electricity generation was predominantly derived from renewable sources: 80% of total**, with hydro generation in line with historical average and wind generation 9% below expected volumes. The 2Q20 in particular was marked by a continued sharp reduction in coal production with zero load factors in all of our coal plants, apart from Aboño which benefits from burning blast furnaces gas, thus promoting circular economy.
- In the 1H20, electricity distributed declined 5% in Portugal and 10% in Spain** (here, also impacted by a reduction in consumption from a large client in the 1Q20). In Brazil, distributed volume declined 8% in the 1H20 YoY, although the ultimate financial impact should be partially mitigated by the recently approved Covid account. **In the 2Q20 distribution volumes were penalized by the pandemic crisis**, with a reduction of 10-12% in 2Q20 YoY in the electricity distributed in our 3 geographies, which was particularly strong in April and May, **while June already showed some signs of recovery.**
- In the supply business in Iberia, electricity sold **declined 5% in Portugal and 11% in Spain**, reflecting **higher weight of C&I clients in Spain and of residential customers in Portugal.**

INSTALLED CAPACITY

KEY ANNOUNCEMENTS

7-Apr-2020	EDP issues a €750 million 7-year Green Bond at 1.63% coupon
16-Apr-2020	€0.7 Bn in payment of Dividends (Year 2019) on May 14th, 2020
16-Apr-2020	EDP secures a PPA for a solar plant of 200 MW in Mexico
7-May-2020	EDP secures a 100 MW Solar PPA in United States
18-May-2020	EDP to sell 2 CCGT plants and B2C supply business in Spain for €515 million
