SUSTAINABILITY IN SUPPLY CHAIN

Assessments ESG

Assessments ESG are key to realizing EDP's Supply Chain Sustainability goals and a powerful tool to create a positive impact along with our Partners.

Assessments ESG (ENVIRONMENTAL, SOCIAL AND GOVERNANCE)

ALIGNMENT through direct interaction with supplier and commitment to sustainable goals defined by EDP

SUPPORT supplier development through customized improvement plans and implementation follow up

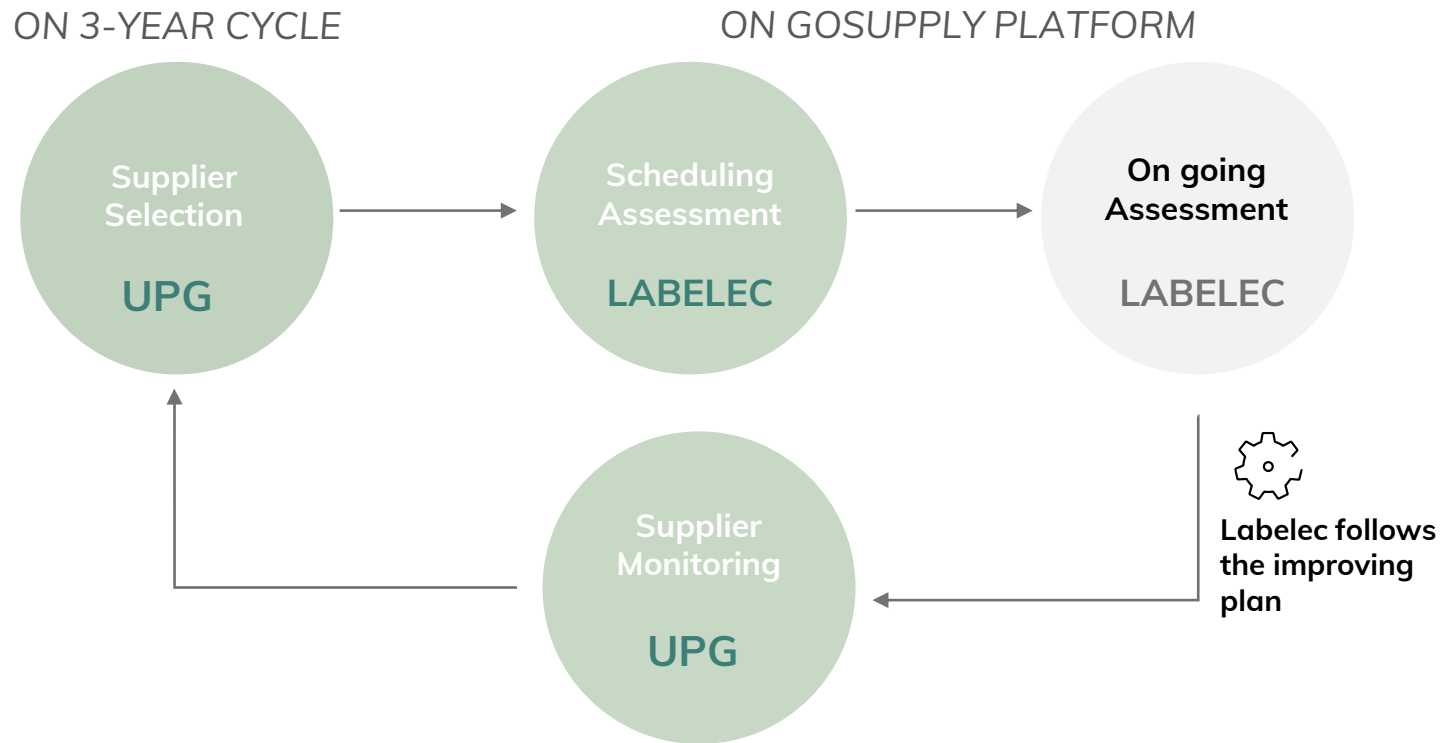

SUSTAINABILITY through a process fully aligned with best practices capitalizing on EDPs experience and industry leadership*

Target is to cover 100% of critical suppliers

*EDP has integrated in the DJSI world index for 14 consecutive years, earning the top position among global utilities in 2020
