

An aerial photograph of a lush green forest, likely a pine forest, with a misty atmosphere in the upper left. Overlaid on the right side of the image are several large, overlapping, semi-transparent circular shapes in vibrant colors: purple, blue, green, and cyan. The letters 'edp' are centered in the middle of the image in a white, lowercase, sans-serif font.

LEPI: Lista de Espécies Potencialmente Impactadas

A lista de espécies potencialmente impactadas pelas atividades da EDP é atualizada anualmente com base nas espécies mencionadas nos diferentes estudos de avaliações de impacto ambiental de projetos de produção, transporte e distribuição de eletricidade do Grupo EDP, independentemente do estatuto de ameaça da espécie a nível global ou regional.

Trata-se de animais ou plantas que, dada a sua distribuição geográfica ou registo de ocorrência, são potencialmente impactados pelas atividades da EDP, em fase de construção e operação. Com base nesta lista, a EDP define medidas de mitigação orientadas, priorizando em função do seu estatuto de ameaça, global ou local.

Para mais informação consultar as páginas 15 e 16 do [Relatório de Biodiversidade 2020-2022](#).
