

Organization name	Description (mission)	Main action of the Organization	Main role EDP played at the Organization	Main action developed by EDP throughout 2022	Relevant work on Climate positioning
AELEC (ex-UNESA) -Asociación Española de la Industria Eléctrica	Professional organization of sectoral nature, for the representation, promotion, management and defense of the general and common interests of its members. Its activity is focused on the disclosure, dissemination and promotion of the technical and regulated aspects of electrical activities and works to position itself as a key player that helps to develop an adequate energy transition in Spain	Positioning for an adequate energy transition in Spain. Spanish representative in Eurelectric	Interest representation	2021 Plan action involvement	Yes
WEF - World Economic Forum	World Organism for public/ private partnerships; business, Academy and States working together looking for global solutions. Political, Business, cultural and civic leaders bulding positioning and engaging in crucial debates solving World Economy issues	Mastering the fourth industrial revolution; solving the problems of the global commons; addressing global security issues.	up to '22, sustainability debates; work group for the Resilience of the electric sector. from '22 on, engaging on the partnership signed in October, preparing of the Davos Annual Meeting. Onboarding through Energy and Climate Platforms	Resilience of the electricity sector protocol; case study Coal to Renewables on the toolkit for the Just Transition; entering WEF at Partner level. Speaking opportunities at COP27 and AM2023	Yes
ELECPOR - Associação portuguesa das empresas do sector eléctrico	Professional organization of sectoral nature, for the representation, promotion, management and defense of the general and common interests of its members. Acts as an interlocutor for these companies in the elaboration and discussion of policies, guidelines and regulation of the electricity sector with Portuguese and international entities	Eurelectric's Portuguese representant	Participation in various Eurelectric working groups to defend the electricity sector's positions vis-à-vis European bodies	Electrification; Electricity prices; Sustainable Finance Taxonomy	Yes
ABRADEE - Associação Brasileira de Distribuidores de Energia Elétrica	Abradee's mission is to be a reference in legislative, regulatory and technological debates that promote the development of electricity distribution on sustainable economic and social bases	Maintenance of management information systems, both for associates and Abradee; Conducting an annual, nationwide survey to find out the degree of customer satisfaction in relation to the quality of services provided by associates; Annual award for the best distribution companies; Best practice seminars and coordination of benchmarking processes; Coordination of Working Groups on topics of interest; Promotion and support events of interest to associates; Coordination of projects for the elaboration/revision of technical standards in the areas of electricity distribution; Elaboration/dissemination of Studies in all areas of Distribution; Provision of Legal Advice for associates, both directly and by hiring; Maintenance (status of "Maintaining Member") of the Brazilian Electricity Committee – CB3 of the Brazilian Association of Technical Standards; Maintain relationships with organizations in the sector, both nationally and internationally	EDP has a seat on the Board of Directors of the Association; Lead Working Groups (for example, Commercial WG); Membership in the Sandbox Governance R&D Management Committee; Participation in the various WGs of the Association; proposition of relevant topics for the electricity distribution segment; performance in the ABRADEE Award	Performance in R&D Sandbox Governance; Participation in the ABRADEE Award; Leadership in the Commercial WG (responsible for alignments regarding Normative Resolution 1000/21); Leadership in GT Renewal of Concessions (temporarily created to discuss ABRADEE proposal for renewal of concessions)	No
Solar Energy Industry Association	Professional organization of sectoral nature, for the representation, promotion, management and defense of the general and common interests of its members. Dues for Solar Energy Trade Association	Advocating representation of solar energy around the world. Studies, fact sheets, state regulatory filings, legislative analysis, public relations and media, industry advocacy, ISO and PUC engagement	Interest representation	Legislative analysis and industry advocacy	No

Organization name		Main action of the Organization	Main role EDP played at the Organization	Main action developed by EDP throughout 2022	Relevant work on Climate positioning
WBCSD - WORLD BUSINESS COUNCIL FOR SUSTAINABLE DEVELOPMENT	World's leading organisation supporting corporate approaches to sustainable development. It is the premier global, CEO-led community of over 200 of the world's leading sustainable businesses working collectively to accelerate the system transformations needed for a net zero, nature positive, and more equitable future	Performs business advocacy on sustainability issues	Taking part in some of its high level projects	H2Zero; Sustainable finance; preparation of global positioning for COP27	No
Schneider Electric NEO Network (New Energy Opportunity)	Community of organizations advancing reliable and cost effective renewable energy and cleantech solutions worldwide	NEO Network's primary mission and activities is to ensure the smooth procurement of clean energy through the facilitation of information exchanges, market reports and "buyer's meetings" between energy suppliers and C&I energy buyers.	Industry Visibility	Through the NEO Network, EDPR NA was able to acquire market intelligence on the clean energy buyer/procurement market in the US, as well as target and reach out to new corporate offtakers for our projects	No
CIP - CONFEDERACAO EMPRESARIAL DE PORTUGAL	Contributing to the Portuguese Economy growth; to competitiveness, innovation and optimizing productivity		Engaged through: Business council/ Industry and Commerce Chambers (EA&S); Climate and environmental National Strategic Council (SUST); Strategic National Energy Council (C&EP, REG)		No
American Clean Power Association	Professional organization of sectoral nature for representing wind power project developers, equipment suppliers, services providers, parts manufacturers, utilities, researchers, and others involved in the wind industry. Dues for Wind Energy Trade Association	Advocating representation of wind energy around the world. Legislative analysis, bill support, company representation at political events and fundraisers, contribution recommendations.	Interest representation	Legislative analysis and industry advocacy	Yes
American Energy Action	Create a powerful voice respected by policy makers and elected officials. Promoting change towards the implementation of Renewable energy	advocacy on policy makers and general public opinion, towards a more educated opinion and public vote	Legislative analysis and industry advocacy	A group to leverage if public support is needed for a project, permit, policy, etc	No
OTHER REPRESENTATIONS OF INTEREST THAT DEVELOP RELEVANT WORK ON CLIMATE POSITIONING					
APREN - Associação Portuguesa de Energias Renováveis	Promotion of Renewable Energies in the electricity sector		EDP provides input whenever there are public consultations on legislation via APREN	Participation in Environmental working groups, another on Production Units for Self-Consumption (UPACs), another on interconnections, auctions. Has been working actively on the topic of IMI	Yes
Wind Europe	Association for wind energy in Europe. Based in Brussels it has over 600 members, which are active in over 50 countries, including companies from the entire wind value chain. Represents the entire value chain: utilities/developers, manufacturers, banks, insurance companies, and research institutes.	The annual event: the organization of the sector's reference event in Europe, which last year took place in Bilbao.	Active member. For the first time, this year time we have the highest category of the association's membership: Market Leaders. Thanks to this category, we will increase our presence by having a place on the board of the association. In addition, we are working to have EDPR members in all working groups. Currently, 15 people take part of the different working groups.	Event that took place in Bilbao. Several people from the company were speakers at the different round tables of the event.	Yes
EURELECTRIC	Represents the common interests of the electricity industry at pan-European level, plus its affiliates and associates on several other continents				Yes

Organization name		Main action of the Organization	Main role EDP played at the Organization	Main action developed by EDP throughout 2022	Relevant work on Climate positioning
AEE	<p>Represents more than 90% of the sector in Spain which includes promoters, wind turbines and component manufacturers, national and regional associations, organizations connected with the sector, consultants, lawyers and financial entities, among others. AEE's main goal is to promote the development of wind energy through its interests, research, communication and education.</p>	<p>AEE's main goal is to promote the development of wind energy through its interests, research, communication and education. AEE coordinates research into the areas surrounding wind energy and provides services to its members, meeting their different needs. It contributes to the formulation of the normative framework with a view to the sector developing under the best possible conditions. It disseminates the reality of wind energy and endeavours to raise awareness in society. It sets in motion high-level events at which it brings together prominent national and international personalities. It publishes reports and studies which are a reference.</p> <p>The Association exercises the presidency and technical secretariat of the Technological Platform of the Wind Energy Sector (REOLTEC) and collaborates with ICEX to increase the presence of Spanish companies abroad. Thanks to the different working groups of the association, which are the backbone of AEE, it analyzes the entire practice of the areas that affect wind energy such as the environment, R&D, regulation or sector communication.</p> <p>In addition to being a member of international associations such as WindEurope, where it is part of the Board of Directors, AEE leads and participates in different international projects and initiatives in order to promote the development of the wind energy sector in Spain and in other countries.</p>	<p>Active member and Partner in some initiatives and campaigns such as 'Vientos de Futuro'. AEE is also a partner of EDPR developing the CSR program 'Keep it Local'.</p>	<p>Vientos de Futuro Campaign https://vientosdefuturo.org/ Keep it Local CSR program https://keepitlocal-program.com/ Participation in Working Groups.</p>	<p>Yes</p>
MAREC (Mid Atlantic Renewable Energy Coalition Action)	<p>Coalition of utility-scale solar, wind, and battery storage developers, wind turbine and solar panel manufacturers, and public interest organizations dedicated to promoting the growth and development of renewable energy in the Mid-Atlantic region</p>	<p>MAREC maintains contract lobbyists in Maryland, Virginia, West Virginia, Kentucky, Ohio, New Jersey, Pennsylvania and focuses its legislative efforts on renewable portfolio standards, long term contracts, transmission and siting policy.</p>	<p>EDP is a board member and actively involved in all state policy and board meetings. EDP provides relevant input and feedback on all legislative efforts to the renewable energy industry and votes on all Board matters.</p>	<p>EDP focused its efforts within MAREC on shaping legislation and regulatory proposals impacting the renewable energy industry to ensure EDP interests were preserved.</p>	<p>Yes</p>
RWEA (AREE)	<p>RWEA is actively involved in the Romanian national and international policy and the dialogue on regulations, communication, research and analysis regarding the extension of renewable energy sources, being the voice of energy transition and the wind energy industry in Romania.</p>	<p>Representation & lobby with authorities (i.e. Parliament, Government, ANRE, OPCOM, etc); updates on the regulatory changes; participation to working groups on regulatory changes; participation in national/international events organized by other associations for RES industry.</p>	<p>Active Member and Partner.</p>	<p>Participation in working groups. Sponsor of RWEA initiatives such as Wind Open Day and its annual event.</p>	<p>Yes</p>
ABEOLICA	<p>Brasilian Association that congregates and represents the wind energy industry in the country, including companies from the entire production chain.</p>	<p>Defends the implementation of the wind source in the electric matrix and has been acting permanently and strategically, with different institutions, to promote the competitiveness and sustainability of the national wind sector.</p>	<p>Active Member and Partner. Participation in the Executive Board.</p>	<p>Participation in working groups. Active voice in initiatives to lead with Borborema's movement. Sponsor of its annual event.</p>	<p>Yes</p>

PSEW	Association supporting and promoting the development of wind energy, whose purpose, pursued through joint activity of its members, is to create advantageous conditions for investment in wind energy in Poland and to systematically increase the use of wind energy as a clean source of electricity.	Lobbying for the establishment of a relevant legal framework allowing for the development and operation of renewable energy sources, in particular wind energy, in Poland. Main actions: a) active participation in consultations of legislative regulations (acts, regulations), strategies, policies and sectoral programmes and taking action to implement new legal regulations fostering wind energy development in Poland. b) strict cooperation with the ministry in charge of energy and climate issues as well as other ministries directly or indirectly related to energy and renewable energy sources; c) cooperation with the European Commission's Directorate-General Energy and Transport, Directorate-General for the Environment and Directorate-General for Research and Innovation; d) cooperation with European Parliament MPs and MPs from the Sejm's and Senate's Committees and other public bodies; e) promotion of wind energy and knowledge about the other relevant to onshore wind technologies, in particular information concerning the benefits stemming from the use of wind energy to produce electricity and the Poland's potential in the area of wind energy development; f) organisation of events attracting national and foreign representatives of the industry; participation in national and international industry conferences as an expert on wind energy in Poland.	EDP Renewables is one of the sponsors of the association. In terms of regulatory and legal issues EDPR gets the association to position the company as follows: i. Lobbying on Windfall tax and related topics; ii. General EDPR position on taxation and hedging; iii. Ongoing consultations and market intelligence sharing; iv. Raising concerns on general cap and hedge; v. Other support on regulatory affairs (eg. Cable pooling, grid infrastructure).	a) Offshore Conference and Exhibition (November 2022) b) Baltic Windustry Conference (September 2022) c) PWEA Conference & Exhibition (June 2022) d) RE-Source Poland Conference (May 2022)	Yes
BCSD - Business Council for Sustainable Development Portugal	BCSD Portugal is an NGO pulling together over 140 outstanding portuguese companies, actively committed to sustainability transition.	The work of BCSD comprises mainly: - Working groups (WG), which favour collaboration between companies to create innovative solutions, mechanisms and tools that allow responding to business challenges in the transition to sustainability; - Training – open to professionals and employees of companies and organizations, whatever the sector, stage of the journey to sustainability, level of knowledge and maturity in terms of sustainability; - Communication, events and publications – to set the national agenda with regard to sustainability issues and raise awareness among the business community and society.	Miguel Setas, member of EDP's Executive Board, is a member of BCSD's Direction since 2021. EDP participates in several working groups of BCSD, namely the Carbon Neutrality Working Group.		Yes
GWEC - Global Wind Energy Council	GWEC's mission is to ensure that wind power is established as one of the world's leading energy sources, providing substantial environmental and economic benefits.	Advocating Wind Power through sustainable platforms of intervention.	Sponsoring activity	Positioning build-up for COP27	Yes
