Monday, August 11, 2014

7:00 p.m. – 9:00 p.m.

**Dixons Corners Community Centre
10951 Cook Road, County Road 18,
Dixons Corners, Iroquois, ON**

Open to the General Public for Viewing

The South Branch Wind Farm (Project) is a 30 MW wind farm that will consist of 10 Siemens SWT-3.0-113 wind turbines. The project is located near the town of Brinston, Ontario in the Municipality of South Dundas in the United Counties of Stormont, Dundas, and Glengarry. The Project received a Renewable Energy Approval (REA) from the Ministry of the Environment on July 11, 2013. As part of the REA, the South Branch Wind Farm must establish a Community Liaison Committee (CLC) primarily for neighbours within one kilometer of the project, but also open to anyone with an interest in the construction, operation, maintenance, or the decommissioning of the Project.

The CLC is intended to be a forum to discuss Project updates, milestones, concerns, issue resolution, and mitigation. CLC members will be asked to communicate with friends and neighbours to provide updates and seek feedback regarding the Project.

Stantec Consulting Ltd. will coordinate the CLC meeting. All meeting materials (minutes, presentations, reports, etc.) will be made available for public review on the Project website at <http://edprwindfarms.com/canada/under-dev/south-branch.htm>. The agenda for the meeting will be posted on the Project website at least one week in advance.

The CLC is open to the general public for observation. Brief depositions may be presented by members of the public. Please note that depositions will be selected at the discretion of the CLC Facilitator and South Dundas Windfarm LP, in consultation with CLC members. To be considered for a public deposition, a written request, which must include the written deposition, must be submitted before Monday, August 4, 2014 to the CLC Facilitator:

Francois Lauzon, CLC Facilitator, Stantec Consulting

Mail: 400-1331 Clyde Avenue, Ottawa, ON K2C 3G4
E-mail: francois.lauzon@stantec.com
Fax: (613) 722-2799
