## The Company

### Vision, Values & Commitments

To be a global energy leader, creating superior value in the energy transition

#### INNOVATION

With the aim of creating value in the many areas in which we operate.

#### SUSTAINABILITY

Aiming to improve the quality of life of current and future generations.

#### HUMANIZATION

Building genuine and trusting relationships with our employees, customers, partners and communities.

#### RESULTS

We fulfil the commitment that we embraced in the presence of our shareholders.

We are leaders due to our capacity of anticipating and implementing.

#### SUSTAINABILITY

We assume the social and environmental responsibilities that result from performance thus contributing towards the development of the regions in which we operate.

We avoid specific greenhouse gas emissions with the energy we produce.

#### CLIENTS

We listen to our clients and answer in a simple and clear manner.

We surprise our clients by anticipating their needs.

#### PEOPLE

We join conduct and professional rigour to enthusiasm and initiative, emphasizing team work.

We promote the development skills and merit.

## 02 EDPR general figures

# 03 Sustainable development
