### **REPORT OF THE MANAGEMENT BOARD**

The Managing Directors of EDP Finance B.V. (hereinafter “the Company”) submit the interim report and the financial statements of the Company for the period ended 30 June 2014.

#### PRINCIPAL ACTIVITIES AND BUSINESS REVIEW

##### General

The Company was incorporated under the laws of The Netherlands on 1<sup>st</sup> October 1999.

##### Activities

The principal activity of the Company is to act as a finance company to EDP Group. The policy of the group is to centralize financing in EDP – Energias de Portugal S.A. (hereinafter “EDP S.A.”) and the Company.

##### Results

During the six-month period under review, ending on 30 June 2014, the Company recorded a profit of 3,843 thousand Euros (six-month period ending 30 June 2013 – loss 17,189 thousand Euros). This profit was essentially due to the increase of the margin between the average interest rates of assets and the average cost of the debt. The average interest rate of assets increased YoY mainly due to an increase on the long term assets with higher interest rates vs a decrease on the short term assets. The average cost of debt also increased YoY, although not as significantly as the average interest rate of assets, due to the refinancing, at higher interest rates, of old financing agreements that matured.

##### Major developments in the first half year of 2014

In the first half of 2014, the Company took advantage of some windows of opportunity in the international capital markets to issue three bonds, under the EDP SA and EDP Finance BV’s “Programme for the Issuance of Debt Instruments” (EMTN). A seven-year USD 750 million Bond was issued on 7<sup>th</sup> January and on 15<sup>th</sup> April the Company issued a five-year Eurobond in the amount of EUR 650 million. On 26<sup>th</sup> June, the Company issued a five-year USD 100 million Bond (Private Placement).

Regarding the loan markets, the Company entered into a new four-year Term Loan in the amount of 150 million Euros, totally drawn down on 24<sup>th</sup> February and entered into a five-year Term Loan on 28<sup>th</sup> May in the amount of 175 million USD, drawn down in the amount of 70 million USD as at 30<sup>th</sup> June 2014.

During the period under review, there were no changes to the keep-well agreement between EDP S.A. and the Company, signed on 14 March 2001.

#### SUBSEQUENT EVENTS

- On 2<sup>nd</sup> July, Fitch Ratings (Fitch) has affirmed EDP and EDP Finance B.V.'s "BBB-" Long-term Issuer Default Ratings (IDR) and senior unsecured ratings and "F3" Short-term IDR, revising its outlook from Rating Watch Negative (RWN) to Stable.

The rating actions follow further disclosure on regulatory changes and their impact on EDP's Spanish operations held directly and through its subsidiaries HC and EDP Renováveis, as well as the delivery of the business plan for 2014-2017 including the management strategy to meet the de-leveraging target by 2017 when the generation contracted revenues in Portugal will be exposed to price and volume volatility.

The Stable Outlook reflects a projected reduction of leverage thanks to a significant downsize of the capital expenditure plan for the next four years, a steady execution of yearly monetization of outstanding tariff deficit receivables, the completion of selective minorities disposals to EDP's equity partner China Three Gorges and an increase of EBITDA supported by new capacity additions.

- On the 8<sup>th</sup> July, the Company entered into a new Term Loan in the amount of USD 200 million with a tenor of five years.
- On the 16<sup>th</sup> July, a five-year Term Loan was entered into in the amount of USD 150 million.
- On the 17<sup>th</sup> July, the Company entered into an internal cross currency swap with EDP SA in the amount of \$250M at a floating rate of Libor + 180bps.
- On the 21<sup>st</sup> July, the Company utilised the remaining USD 105 million of the USD 175 million five-year Term Loan dated 28<sup>th</sup> May 2014.
- On the 22<sup>nd</sup> July the Company early repaid USD 750 million of a USD 1,049.6 million Multi-currency Term Loan Facility, dated 19<sup>th</sup> October 2012. As a result, the loan has outstanding USD 298,6 million which matures in October 2015.
