

# Hampton Solar Park

Hampton County, South Carolina

Hampton Solar Park is located approximately 85 miles west of Charleston in southeastern South Carolina. Located entirely within Hampton County, the solar park complements the area’s agricultural resources with a stable, weather-resistant cash crop in the form of landowner lease payments.

**20 MW**  
ONLINE SINCE **2017**

Hampton Solar Park’s generation is equivalent to the average consumption of **3,000 South Carolina homes**.<sup>1</sup>

Hampton saves more than **35 millions of gallons** of water each year and would prevent the air pollution that causes smog, acid rain, and climate change.<sup>2</sup>

## Economic Benefits

CAPITAL INVESTMENT  
**\$36 million+**

**\$540,000**<sup>4</sup>  
PAID TO LOCAL GOVERNMENTS

**\$260,000**  
PAID TO LANDOWNERS

**\$3.2 million**  
SPENT LOCALLY

PERMANENT JOBS  
**2 jobs created**

CONSTRUCTION JOBS  
**64 jobs created**

Hampton Solar Park consists of approximately 55,000 solar photovoltaic panels.

Power generated at Hampton Solar Park will support **South Carolina's electric grid.**

Hampton Solar Park will **contribute to the national energy security** for the state of South Carolina and the United States, helping diversify domestic supply.

In 2020, solar represented **nearly 43 percent of new electricity generating capacity in the U.S.**<sup>3</sup>

## About Us

EDP Renewables North America LLC (EDPR NA), its affiliates, and its subsidiaries develop, construct, own, and operate wind farms and solar parks throughout North America. Headquartered in Houston, Texas, with 58 wind farms, nine solar parks, and eight regional offices across North America, EDPR NA has developed more than 8,800 megawatts (MW) and operates more than 8,200 MW of onshore utility-scale renewable energy projects. With more than 950 employees, EDPR NA's highly qualified team has a proven capacity to execute projects across the continent.

EDPR NA is a wholly owned subsidiary of EDP Renewables (Euronext: EDPR), a global leader in the renewable energy sector. EDPR is the fourth largest renewable energy producer worldwide with a presence in 28 markets across Europe, North America, South America, and Asia Pacific. EDPR has a robust development portfolio with first-class assets and a market-leading operational capability in renewables. These include wind onshore, utility scale and distributed solar, wind offshore (through its 50/50 JV - OW), and technologies complementary to renewables such as batteries and green hydrogen.

EDPR is a division of EDP (Euronext: EDP), a leader in the energy transition with a focus on decarbonization. EDP - EDPR's main shareholder - has been listed on the Dow Jones Index for 14 consecutive years, recently being named the most sustainable electricity company on the Index.

<sup>1</sup>Power generation calculated using a 25% capacity factor. Household consumption based on the 2020 EIA Household Data monthly average consumption by state.

<sup>2</sup>Assumes 0.58 gallons of water consumed per kWh of conventional electricity from Lee, Han, & Elgowainy, 2016.

<sup>3</sup>Based on 2020 SEIA U.S. Solar Market Insight.

<sup>4</sup>This number is an approximation and still being determined.
