Renewable Energy Approval

Notice of a proposal to engage in a Renewable Energy Project Notice of Meetings s. 15(1)(a)(b) Ontario Regulation 359/09

Notice of Meetings s. 15(1)(a)(b) Ontario Regulation

NOTICE OF A PROPOSAL and NOTICE OF A PUBLIC MEETING

to be held by Prowind Inc. regarding a Proposal to Engage in a Renewable Energy Project

Project Name: South Branch Wind Farm

Location: Brinston and Dixon's Corners, Township of South Dundas, United Counties of Stormont, Dundas and

Glengarry; and east of Shanly, Township of Edwardsburgh/Cardinal, United Counties of Leeds & Grenville

Dated at Kemptville this the 30th of June 2010

Prowind Inc. is planning to engage in a renewable energy project in respect of which the issuance of a renewable energy approval is required. The distribution of this notice of a proposal to engage in this renewable energy project, the notice of a public meeting, and the project itself are subject to the provisions of the *Environmental Protection Act (ACT)* Part V.0.1 and Ontario Regulation 359/09 (Regulation). This notice must be distributed in accordance with section 15 of the Regulation prior to an application being submitted and assessed for completeness by the Ministry of the Environment. This project is being proposed in accordance with the requirements of the Act and Regulation.

Meeting Location: DATE: Wednesday, August 11th, 2010 TIME: 6:00 pm to 9:00 pm

PLACE: Matilda Hall, 4421 County Road 16, Dixon's Corners, Ontario

Project Description: Pursuant to the Act and Regulation, the facility, in respect of which the project is to be engaged in, is considered to be a Wind Energy Facility, Class 4. If approved, this facility would have a total maximum nameplate capacity of 30 MW. The project location is described in the map below.

Documents for Public Inspection: This project is being proposed in accordance with the requirements of the Act and Regulation. The Draft Project Description Report titled *South Branch Wind Farm Project Description Report – DRAFT* describes the facility as a wind power generation facility with between 10 and 15 turbines on agricultural land. Each turbine will produce a maximum of 3.0 MW of electricity for a total energy output of no more than 30 MW. A written copy of this report is available for public review at **www.prowind.ca**.

Printed copies are available for review at the Municipal Offices of South Dundas (4291 County Road 31 / Main St, Williamsburg, ON) and Edwardsburgh-Cardinal (18 Centre Street, Spencerville, ON).
