

Li Li

She was born in 1963 in Shandong, China.

She has a bachelor's degree in International Business with a major in Hydropower Engineering. She is registered in China as a First-class Constructor.

She started her career at China International Water & Electric Corp. (CWE) in 1984 as Assistant Engineer in the Planning Department and took several managerial and engineering positions thereafter as General Director in several business units and even as President of CWE (2015).

In 2019, she has joined China Three Gorges Corp. where she was appointed as Deputy Chief Economist and currently holds that position, backed by 35 years career in international contracting management and investment project development.

She was appointed representative of the China Three Gorges Brasil Energia, Ltda., member of the General and Supervisory Board of EDP, since December 2019.
