2. Amendments to terms and conditions of Debt Instruments to be issued under the Programme

Pursuant to the Tenth Supplemental Trust Deed, the terms and conditions applicable to Instruments issued under the Programme on or after 15 June 2012 have been amended by the insertion of a new Condition 7.11 – *Redemption at option of Holders (Investor Put on Change of Control)* as follows:

"If at any time while any Instruments remain outstanding there occurs a Change of Control and within the Change of Control Period a Rating Downgrade as a result of that Change of Control occurs (together, a "**Put Event**"), each Holder will have the option (unless, prior to the giving of the Put Event Notice referred to below, the Issuer gives notice to redeem the Instruments in accordance with Condition 7.2 (*Redemption for tax reasons*)) to require the Issuer to redeem each of the Instruments held by such Holder on the Mandatory Redemption Date at its principal amount together with interest accrued to but excluding the Mandatory Redemption Date.

Upon EDP becoming aware that a Put Event has occurred EDP shall promptly notify EDP B.V. of such fact and the Issuer shall give notice (a "**Put Event Notice**") to the Trustee and the Holders in accordance with Condition 15 (*Notices*) specifying the nature of the Put Event and the circumstances giving rise to it and the procedure for exercising the option set out in this Condition 7.11.

To exercise the option to require redemption of an Instrument under this Condition 7.11 the holder of this Instrument must, if this Instrument is in definitive form and held outside Euroclear Bank and Clearstream, Luxembourg, deliver such Instrument, on any business day in the city of the specified office of the relevant Paying Agent falling within the Put Period, at the specified office of any Paying Agent, accompanied by a duly signed and completed notice of exercise in the form (for the time being current) obtainable from the specified office of any Paying Agent (a "**Put Option Notice**") and in which the holder must specify a bank account (or, if payment is required to be made by cheque, an address) to which payment is to be made under this Condition 7.11. The Instrument should be delivered together with all Coupons appertaining thereto maturing after the Mandatory Redemption Date failing which an amount

will be deducted from the payment to be made by the Issuer on redemption of the Instruments corresponding to the aggregate amount payable in respect of such missing Coupons.

If this Instrument is represented by a Global Instrument or is in definitive form and held through Euroclear Bank or Clearstream, Luxembourg, to exercise the right to require redemption of an Instrument under this Condition 7.11 the holder of the Instrument must, within the Put Period, give notice to the Paying Agent of such exercise in accordance with the standard procedures of Euroclear Bank and Clearstream, Luxembourg (which may include notice being given on his instruction by Euroclear Bank or Clearstream, Luxembourg or any common depositary for them to the Paying Agent by electronic means) in a form acceptable to Euroclear Bank and Clearstream, Luxembourg from time to time and, if this Instrument is represented by a Global Instrument, at the same time present or procure the presentation of the relevant Global Instrument to the Paying Agent for notation accordingly.

The Paying Agent to which such Instrument and Put Option Notice are delivered will issue to the holder concerned a non transferable receipt (a "**Put Option Receipt**") in respect of the Instrument so delivered. The Issuer shall redeem the Instruments in respect of which Put Option Receipts have been issued on the Mandatory Redemption Date, unless previously redeemed and purchased. Payment in respect of any Put Option Receipt will be made on the Mandatory Redemption Date by transfer to the bank account (if any) specified in the Put Option Notice and in every other case on or after the Mandatory Redemption Date, in each case against presentation and surrender or (as the case may be) endorsement of such Put Option Receipt at the specified office of any Paying Agent in accordance with the provisions of this Condition 7.11.

For the purposes of this Condition:

3. Recent Developments

a. Strategic Partnership Agreement with CTG:

On 11 May 2012, the acquisition by China Three Gorges International (Europe), S.A. (“CTGI Europe”) from Parpública – Participações Públicas (SGPS), S.A. of 780,633,782 shares representing 21.35% of the share capital of EDP, in the context of the 8th reprivatization phase of EDP, was closed. As a result, a change of the title of attribution of the voting rights inherent to the respective share capital and voting rights of EDP has occurred.

Moreover, on the same date, the strategic partnership agreement between EDP and China Three Gorges Corporation (“CTG”) signed on 30 December 2011 became effective and following this, as members of the General and Supervisory Board, CTG, China International Water & Electric Corp., CTGI Europe and China Three Gorges New Energy Co., Ltd. appointed their representatives.

b. New Business Plan:

EDP has presented its 2012 – 2015 Business Plan. Its strategy continues to be based on the three central pillars: controlled risk, superior efficiency and focused growth, and the main changes introduced by the new Business Plan in respect of each of the pillars are the following:

Controlled Risk: In order to maintain its unique low risk business profile, EDP is increasing its exposure to countries outside Iberia, with lower risk profile. At the same time, it expects the weight of LT Contracted generation and regulated networks in the EBITDA to continue clearly above its peers, even after the end of some CMEC’s and the new hydro capacity in Portugal.

Superior Efficiency: EDP’s objective is to maintain a leading position in efficiency and lean operations. In that context, it launched OPEX III which is targeting annual savings of approximately €130 million by 2015.

Focused Growth: Investments focusing on existing growth – hydro, renewables and Brazil. In particular, EDP is targeting a greener generation mix, increasing its investment in free CO2 technologies. As regards the wind business, the focus is now moving towards Eastern European markets.

The successful partnership with CTG referred to in paragraph a. above is expected to reinforce these strategic pillars.

c. Regulation of the Portuguese Power Sector:

On 17 May 2012, the Portuguese Government, acting through the Ministry of Economy and Employment, announced a set of measures for the power sector, which provide for two main changes with immediate effect and having an economic and financial impact on the EDP Group.

First, an adjustment has been set to the interest rate applicable to the tariff repercussion of the yearly fixed amount of the costs for maintenance of the contractual balance (CMEC), which, on average for the period 2013 to 2027, is €13 million per year, corresponding to a present value of €120 million. This adjustment results from the application of the mechanism for calculation of the fixed amount interest rate under Decree-Law no. 240/2004, of 27 December 2004.

In addition, the incentive to investment in power generation resulting from capacity payments shall be reviewed. In particular, the capacity mechanism shall cease to be applicable to thermal power plants until 2013, reflecting the date for completion of the measures foreseen in the Financial Assistance

Program for the energy sector, as per its 3rd review, although after such date the capacity amount shall correspond to € 6000/MW per year. The capacity payments are also maintained for new hydro power plants, during a period of 10 years, in an amount calculated on the basis of the current criteria for national supply coverage set out in regulations, which shall be reduced by 50 per cent. for capacity repowering in hydro plants with reversible pumping.

This new framework allows regulatory predictability and stability in the Portuguese power sector in the medium and long term, which has significant importance for all the stakeholders of EDP, it being estimated that, in global terms, the economic and financial impact for the EDP Group, once all the measures are in effect (2014), corresponds to 1 per cent. of EBITDA or 2.5 per cent. of EPS (earnings per share) per year.
