TOP 10 Representation of Interest 2024							
Organization name	Category	Description	Main action of the Organization	Main role EDP played at the Organization	Main action developed by EDP throughout 2024	EDP Contribution (€)	Relevant work on Climate positioning
(Mission of the association/institution)							
ACP - American Clean Power Association	Sectorial/Industrial Trade associations or tax-exempt groups	National trade association that represents clean energy power project developers, equipment suppliers, services providers, parts manufacturers, utilities, researchers, and others involved in the clean power sector.	Advocating for the development of clean energy in North America. Membership services include access to market intelligence, legislative analysis, bill support, and company representation at political events.	EDPR NA has a seat on the board of directors, and actively participates in programming and market intelligence gathering. EDR NA participates in all major ACP committees; Ocean Winds participates in the Offshore Wind Council; H2BU participates in the Hydrogen Committee.	Legislative analysis and industry advocacy	803 000,00 €	Yes
AELEC - Asociación de Empresas de Energía Eléctrica	Sectorial/Industrial Trade associations or tax-exempt groups	AELEC is the Spanish association for electricity companies, widely represented throughout electricity value chain. It's activity is focussed on spreading and promoting the technical and regulatory features of electric activity. Its goal is to be a key-player, contributing towards the energy transition development in Spain.	Actively positioning for proper regulatory, transition and electrification conditions in Spain. Representing Spain at Eurelectric. AELEC centers its activity in spreading and promoting technical and regulatory activity aspects, specially through Distribution, building a positioning place as a key player on the Spanish Energy Transition.	EDP is a Board member. Leads and promotes knowledge and development on Energy Transition and digital transformation on the spanish electric sector, throughout its value chain.	Engagement at the Activity Plan; Participating on working and discussion groups, standing for EDP España positions.	465 516,00 €	Yes
ABRADEE - Associação Brasileira de Distribuidores de Energia Elétrica	Sectorial/Industrial Trade associations or tax-exempt groups	Main Brazilian association in the electricity distribution segment: It's the main forum to analyze and promote the Brazilian electric sector's development, concerning Energy Distribution.	The Association gathers Electric Energy Distribution Companies, promoting best practices, innovation, regulatory enhancement, and contributing to the sector's sustainability, always searching for better solutions for both companies and clients.It has as associates all the economic groups that operate in the utility segment (EDP, ENEL, Neoenergia/Iberdrola, Energisa, CPFL and Equatorial), with a good interface with ANEEL and Ministry of Mines and Energy, the main sectorial stakeholders.	EDP has a seat on the Board of Directors of the Association; Lead Working Groups (e.g., commercial); Membership in the Sandbox Governance R&D Management Committee; Participation in the various WGs of the Association (Tariff, Modernization; Expansion; Supervising, R&D, Activ Management); and on the Governance, R&D, Institutional, juric and Regulatory Committees. EDP is also very active within the ABRADEE award.	Abraadee is core for EDP's stand on strategy aligned goals, specially in what comes to Renovation and Concession Contracts. It was this association that was responsible for the articulation and connection between legislative and executive powers, regulator stakeholders, media and the various sector's stakeholders, around budgetting and all permitting issues, acting in defense of the company's interests.	363 476,00 €	Yes
WEF - World Economic Forum	Sectorial/Industrial Trade associations or tax-exempt groups	World Organism for public/ private partnerships; Business, Academy, Society and States working together looking for global solutions. Political, Business, cultural and civic leaders building positioning and engaging in crucial debates solving World Economy issues	Mastering the fourth industrial revolution; solving the problems of the global commons; addressing global security issues	Participative work through Energy, Climate and Just Transition themes. Deep engagement on the Davos Annual Meeting, through Energy, Nature&Climate and CyberSecurity Platforms, through the broader Electricity Industry Community	Involvement in various work fronts, initiatives and events, reinforcing advocacy and political involvement, contacts and knowledge sharing. Main event: Davos, Jan 24 and Jan 25 (representation at the highest level by two CAE members); Participation in the Alliance of CEO Climate Leaders. Presentation opportunities also at the Sustainable Development Impact Meeting NY Climate Week and UNFCCC COPs. EDP's support for Open Letters COP28 and COP29. EDP has already participated in more than 90 events, and currently 32 people are involved in the Forum's initiatives.	346 198,05 €	Yes
Wind Europe	Sectorial/Industrial Trade associations or tax-exempt groups	Association for wind energy in Europe. Based in Brussels, it has over 600 members, who are active in more than 50 countries, including companies from across the wind energy value chain. It represents the entire value chain: utilities/developers, manufacturers, banks, insurance companies, and research institutes	"Market Leaders" superior engagement, bringing EDP to the Executive Committee (Duarte Bello) and Management Team (Jorge Casillas). 19 EDP executives participate actively in the Working Groups.	Active member. For the first time, this year time we have the highest category of the association's membership: Market Leaders. Thanks to this category, we will increase our presence by having a place on the board of the association. In addition, we are working to have EDPR members in all working groups. Currently, 15 people take part of the different working groups	Active participation in technical working groups: Communication; Electrification; Floating; Markets&Regulation; Offshore; Supply Chain; Sustainability; System Integration. Active engagement in Task Forces: Digitalization & Cybersecurity; Flexibility Markets.	261 165,62 €	Yes
SEIA - Solar Energy Industry Association	Sectorial/Industrial Trade associations or tax-exempt groups	National trade organization of a sectoral nature for the representation, promotion, management, and defense of the general and common interests of its members in the solar industry.	Advocating representation of solar energy in the U.S. at the federal and state level with studies, fact sheets, state regulatory fillings, legislative analysis, public relations and media, industry advocacy, ISO and PUC engagement	EDPR NA has a seat on the board of directors, and actively participates in programming, speaking at events, and market intelligence gathering.	Legislative analysis and industry advocacy; energy research and education	209 000,00 €	Yes
ELECPOR - Associação portuguesa das empresas do sector eléctrico	Sectorial/Industrial Trade associations or tax-exempt groups	Professional organization of sectorial nature, for the representation, promotion, management and defense of the general and common interests of its members. Acts as an interlocutor for these companies in the elaboration and discussion of policies, guidelines and regulation of the electricity sector with Portuguese and international entities	Eurelectric's Portuguese representant; participates on policy & regulation discussion and proposals for the electric sector.	EDP is now President of the Board of Directors. Through ELECPOR, EDP participates on 3 strategic pillars: 1. policy & regulation development for the sector, towards national and international entities; 2. Enhancing Innovation as catalyst for transition, energy efficiency and generating value for economy and society; 3. development of the industry's knowledge, promoting the energy sector and electrification benefits. Participation in various Eurelectric working groups and committees, defending the electricity sector's positions vis-à-vis European institutions.	Active participation through conferences and events, as well as public consultation. Internal working groups, studies and analysis on Electrification; Electricity prices; Sustainable Finance Taxonomy	202 535,00 €	Yes
Instituto Abradee	Other	It's the social arm to ABRADEE, promoting studies and activities of R&D on the Brazilian electricity sector, thus encouraging sustainable and innovative practices.	Then Institute plays a crucial role supporting EDP in its initiatives of social responsibility and community engagement, besides acting as a strategic partner on concessions' renewing and strengthening the electric sector, promoting a sustainable development.	Board Member	Through 2024 the main action was on developing R&D on the tariff sandbox, advocating for temporary permitts. These would allow for temporary experiment on new tariffs and billing, aiming to modernize client tariffs. EDP participated in the Abradee Award delivered by the Instituto.	183 880,00 €	Yes
ACORE - American Council On renewable Energy	sector Association and tax-exempt groups	The American Council on Renewable Energy (ACORE) is a 501(c)(3) national nonprofit organization that unites finance, policy and technology to accelerate the transition to a renewable energy economy.	Research, analysis, and education on clean energy finance, policy and technology; event and conference planning and management	EDP is a Board member (Sandhya Ganapathy) and has also na alternate (Tom Starrs). Working groups also have EDP's participation at Governamental Affairs engagement level.	Participation in the ACORE annual conference; consulting participation by Govm't Affairs team members and at Board level.	164 175,00 €	
WBCSD	Sectorial/Industrial Trade associations or tax-exempt groups	Global CEO-led community of over 200 of the world's leading sustainable businesses working collectively to accelerate the system transformations needed for a net zero, nature positive, and more equitable future. WBCSD reinforces the business case for sustainability through tools, services, models and experiences, as well as the collective positioning of its members.	WBCSD supports the deepening of sustainability by providing tools, services, models and experiences, and generating a positive collective positioning among its members. WBCSD's strategic involvement with multilateral processes such as COPs, G20, and G7, such as as focal point of the Marrakech Partnership for Industry, or the partnership with the Breakthrough Agenda, with the aim of supporting governments and businesses around the world to work together between Climate COPs, with specific objectives on the costs and scale of clean technologies.	EDP's CEO is part of the Executive Committee and was elected for a two-year term (2023-2024) with Vice-Chair role in 2024-2026.Participation in work groups and contributions to reports and other tools with EDP cases. Collaboration in different working groups within the areas of Climate Imperative and Energy Pathway. Showcase of EDP best pratices.	Business Manifesto for Climate Recovery (Nov. 2021) - The Manifesto set out twelve priorities for action framed around reducing, removing and reporting CO ₂ emissions and highlights the public-private collaboration needed to drive climate action. Business Barometer within the Breaktrough Agenda initiative (Nov. 2024) to capture, year-on-year, the progress corporations are making toward net zero transition, highlight key successes, and define what is required to accelerate investments and further scale markets.	150 165,00 €	Yes

OTHER REPRESENTATIONS OF INTEREST THAT DEVELOP RELEVANT WORK ON CLIMATE POSITIONING							
Organization name	Category	Description	Main action of the Organization	Main role EDP played at the Organization	Main action developed by EDP throughout 2024	EDP Contribution (€)	Relevant work on Climate positioning
(Mission of the association/institution)							
Renewable Energy Wildlife Institute (REWI)	Sector Association and tax-exempt groups	Think-tank for biodiversity protection around development of renewable energy projects.	WildLife protection in renewable energy generation areas.	Part of the Executive Board (EDPR NA's Head of Environment, Christi Calabrese)	Strengthen awareness and knowledge of the interaction between developing renewables and empowering wildlife/biodiversity and surrounding nature.	109 450,00 €	Yes
Solar Power Europe	Sectorial/Industrial Trade associations or tax-exempt groups	Bridging Policy actors and the Solar Value Chain	Making sure that Solar Energy is the main energy source throughout Europe by 2030.	EDP actively participates in working groups, discussions, studies and analysis.	Advocacy Committee, Buildings and prosumers Workstream, Grids & Flexibility Workstream, Land Use and Permitting Workstream, Manufacturing, Markets & Investments; Grids & Flexibility Workstream; Land Use and Permitting Workstream; Renewable Hydrogen & Electrification; Grids & Flexibility Workstream; Advocacy Committee, Land Use and Permitting Workstream, Markets & Investments; Digitalisation Workstream; SSI Sponsor, Supply Chain Sustainability; Global Markets.	80 000,00 €	Yes
ABEEOLICA - Associação Brasileira de Energia Eólica	Sectorial/Industrial Trade associations or tax-exempt groups	Brazilian Association that congregates and represents the wind energy industry in the country, including companies from the entire production chain. It acts as a channel between government, companies and society. Its goal is to develop the wind energy throughout Brazil, standing for public policy towards growth, and supporting sustainable eolic projects.	Active climate-change awareness, defending the implementation of the wind source in the electric matrix and acting permanently and strategically, with different institutions, to promote the competitiveness and sustainability of the national wind sector. Stating that Wind reduces the dependency on fossil fuel and strenghtens the country's independence, Abeeolica defends the Paris Agreement and fights for Brazilian Climate Goals.	Active Member and Partner Participation in the Executive Board (Pedro Mallmann); engaged through Working Groups (Regulatory, Communication, Environment, Finance, Competitiveness of Production Chain, Patrimonial Safety, Transformation and H2)	Participation in working groups: The "Transformação" project gathered 17 companies, leading to the editing of a Best Practice Manual for the Eolic Sector https://abeeolica.org.br/jesg/ The presentation event - https://abeeolica.org.br/abeeolica-lanca-aula-de-boas-praticas-sociambiental-do-setor-eolico/ Study on how to measure the social and economic level of Brazilian States and Municipalities with eolic development.	62 826,84 €	Yes
GWEC - Global Wind Energy Council	Sectorial/Industrial Trade associations or tax-exempt groups	GWEC's mission is to ensure that wind power is established as one of the world's leading energy sources, providing substantial environmental and economic benefits	Support and advocacy for the promotion, development, and implementation of wind energy	EDP has presence in the Executive Committee (Rafael Solis)	Working Groups/Task Forces: Brussels, South America, Africa, South East Asia, Vietnam, Philippines.	50 000,00 €	Yes
Global Renewables Alliance	Sectorial/Industrial Trade associations or tax-exempt groups		Aims to accelerate the energy transition, defending the global objective of Triple RES capacity in the world	Policy and Advocacy, Government engagement. EDP speaker in several events, Sponsorship of global events, Social media campaigns. Policy and Advocacy, Government engagement. EDP speaker in several events. Sponsorship of global events, Social media campaigns.	3XRenewables campaign - call for world leaders and Parties to the Paris Agreement to commit to tripling renewable energy capacity to a minimum of 11,000 GW by 2030 at COP28. Time4Action campaign - GRA's policy agenda 'Actions to Deliver 3xRenewables by 2030' outlines the core actions needed to achieve the global renewables target. Action on finance, permits, supply chains and grids are urgently required to deploy 11.000 renewable gigawatts by 2030. Global Renewables Alliance Open Letter "Now Deliver Change" - Call on Governments to deliver ambitious, specific and actionable NDCs: Ambitious Nationally Determined Contributions (NDCs) with numerical renewable energy targets and enabling policy reforms that are: Ambitious: aligned with the GST outcome and 1.5°C pathways. Specific: include quantifiable, renewable energy capacity targets for 2030 and 2035. Actionable: be underpinned by robust energy, resource and investment plans that provide certainty to the industry and finance sector.	50 000,00 €	Yes
EURELECTRIC	Sectorial/Industrial Trade associations or tax-exempt groups	Represents the common interests of the European electricity industry at pan-European level as well as in other international fora	Contributes to the positioning of the power sector towards European institutions on a large spectrum of topics, ranging from power generation, distribution and supply, as well as industrial policy, supply chains, innovation and end uses. It promotes the electrification of the economy as a source of competitiveness, decarbonization and security. As a centre of strategic expertise, EURELECTRIC promotes the dialogue among members and various stakeholders, identifying the common interests and solutions to the challenges of the EU economy. Eurelectric publishes position papers and studies to stimulate dialogue and informed decisions on EU policies on energy and climate.	EDP is part of AELEC and ELECPOR which are, respectively, the Spanish and Portuguese representatives in Eurelectric. EDP is represented in the Board as well as in the structure of expertise of the association, which consists of working groups that meet on a regular basis to define the position on various topics of interest for the power sector.	EDP has actively participated to the activities of the association, both in terms of positioning and advocacy. The main topics discussed have been electrification, electricity markets, networks and security of supply, these two last through two specific studies published by Eurelectric: https://energy-security.eurelectric.org/wp-content/uploads/Eurelectric-report-energy-security-in-the-age-of-electricity-1.pdf https://powersummit2024.eurelectric.org/wp-content/uploads/2024/07/Grids-for-Speed_Report_FINAL_Clean.pdf	44 000,00 €	Yes
APREN - Associação Portuguesa de Energias Renováveis	Sectorial/Industrial Trade associations or tax-exempt groups	Promotion of Renewable Energies in the electricity sector	Positioning for an adequate energy transition in Portugal (Advocacy for the representation of wind energy producers' interests, strategy, advocacy, regulation, etc.). Preparation of Studies and Publications Annual event "Portugal Renewable Energy Summit" Communication APREN Award	EDP is vogal at the Executive Board of Directors (Hugo Costa). Participates actively in all challenges, bringing input on public consultation, internal working groups, and sharing internal studies and analysis that will facilitate the sector and the Renewable Energy growth.	Participation at events and conferences, as well as Public Consultations on the Sector. Promotion on Renewable Energy. Participation in working groups, studies and sector analysis.	87 200,00 €	Yes
AEE - Asociación Empresarial Eólica	Sectorial/Industrial Trade associations or tax-exempt groups	Represents more than 90% of the sector in Spain which includes promoters, wind turbines and component manufacturers, national and regional associations, organizations connected with the sector, consultants, lawyers and financial entities, among others. AEE's main goal is to promote the development of wind energy through its interests, research, communication and education		EDP is part of the Executive Committee (Rocio Sicre/ Silvia Encinas).Active member and Partner in some initiatives and campaigns such as "Vientos de Futuro"	Participation in working groups, attendance at annual events, collaboration with institutional campaign and positioning of the wind sector 'Vientos de Futuro'. EDP is strongly aligned with focusing on accelerating electrification and increasing the pace of wind projects' pipeline. According to its statements, the wind sector is key to meeting the objectives of the National Integrated Energy and Climate Plan (PNIEC) 2023-2030, which aims to reach 62 GW of installed wind capacity by 2030, including 3 GW of offshore wind. EDP also supports action on stressing the importance of protecting the wind industry as a renewable technology that can be manufactured entirely in Europe, promoting industrial policy measures that strengthen the European value chain. Furthermore, it stresses the need to streamline permitting for new installations and to ensure the sustainability of investments in the sector.	38 433,00 €	Yes
UN GLOBAL COMPACT	International Association	UN lead organization of companies to align their strategies and operations with Ten Principles on human rights, labour, environment and anti-corruption; and Take strategic actions to advance broader societal goals, such as the UN Sustainable Development Goals, with an emphasis on collaboration and innovation.	10 principles of action aligned with Human Rights, Labor, Environment and anti-corruption. Collaboration and Innovation. UN Global Compact Caring for Climate Initiative co-lead with the UN Environment Programme and the Secretariat of the UN Framework Convention on Climate Change to advance the role of business in addressing climate change.	Participation in the Annual Report, participation in United Nations events and initiatives for companies.	EDP was amongst the first 80 subscribers of Business Ambition for 1.5°C (2019), committed to define strategies to achieve a net zero target aligned with the objective of limiting the average global temperature to 1.5°C. [Sept. 2020] endorsement of the CEO STATEMENT FOR RENEWED GLOBAL CORPORATION in support of inclusive multilateralism to be presented at the United Nations General Assembly, during the UN Private Sector Forum event, as part of the celebration of the 75th anniversary of the UN. Participation at Caring for Climate event and business meeting of high-emitting sectors at COP29.	41 285,00 €	Yes
MAREC - MidAtlantic Renewable Energy Coalition Action	Sectorial/Industrial Trade associations or tax-exempt groups	Coalition of utility-scale solar, wind, and battery storage developers, wind turbine and solar panel manufacturers, and public interest organizations dedicated to promoting the growth and development of renewable energy in the Mid-Atlantic region.	MAREC serves as one of our key state legislative advocacy organizations. Their geographic footprint generally follows the PJM RTO states and focuses its legislative efforts on renewable portfolio standards, long term contracts, transmission and siting policy.	EDPR NA is a board member and has a representative on the Executive Board, serving as treasurer (F25, NA Government Relations). MAREC is a coalition of utility-scale wind, solar, and battery energy storage companies and has been a key advocate for legislation and regulations that support the continued growth and expansion of these technologies. EDP provides relevant input and feedback on all legislative efforts to the renewable energy industry and votes on all Board matters.	EDP NA focused its efforts within MAREC on shaping legislation and regulatory proposals impacting the renewable energy industry to ensure EDP NA's interests were preserved.	38 307,50 €	Yes
We Mean Business Coalition	Sectorial/Industrial Trade associations or tax-exempt groups	Non-profit association of different corporate associations, collaborates with an extensive network of organizations to accelerate the transition to a fair and climate-resilient carbon-neutral economy.	Conducts advocacy on sustainability issues	EDP collaborates at the Policy Advisory Group. Sponsorship payment for the Business pavilion at COP27. Contributions to policy papers prepared before world meetings (G7, G20, UNFCCC COPs)	BUSINESS AMBITION FOR 1.5 – OUR ONLY FUTURE [SEPT. 2019] - Letter signed by the CEO, committing to define strategies with ambition to achieve an emissions reduction trajectory aligned with the goal of limiting average temperature to 1.5°C. BUSINESS LETTER TO SUPPORT BIDEN-HARRIS ADMIN. [MAR. 2021] - Business Letter in support of the Biden-Harris Administration, belonging to the coalition of We Mean Business and Ceres organisations. BUSINESS OPEN LETTER TO G20 LEADERS BY WE MEAN BUSINESS COALITION [SEPT. 2021] - The letter stresses the need for greater political ambition from G20 leaders and includes a set of public policy recommendations to achieve the 1.5°C target and accelerate corporate action. THE FOSSIL TO CLEAN [SEPT. 2023] policy letter and campaign calling for fossil fuel phase out "Fossil to Clean". The letter and campaign aim to send a clear message that businesses are taking action to accelerate the deployment of clean technologies and reduce emissions – and that business can go even further with bold political leadership at COP28 and beyond. STAND UP FOR SUSTAINABLE INVESTING & CORPORATE CLIMATE ACTION [FEV. 2023] - statement to send a collective message from companies and investors that climate change and other sustainability threats are material risks that should be considered in corporate and investor decision-making. CALL TO ACTION FOR AMBITIOUS AND INVESTIBLE NDCs [SEPT. 2024] urges governments - led by G20 countries - to create ambitious and investible NDCs to act across three pillars: Ambitious NDC content, Policies for NDC implementation, Government-business dialogue and communication.	22 925,26 €	Yes
BCSD Portugal - Conselho Empresarial para o Desenvolvimento Sustentável	Sectorial/Industrial Trade associations or tax-exempt groups	BCSD Portugal is an NGO pulling together over 140 outstanding portuguese companies, actively committed to sustainability transition.	BCSD performs sustainability maturity checks, including climate action, and publishes annual aggregated results. The entity work comprises mainly: - Working groups (WGs), which favour collaboration between companies to create innovative solutions, mechanisms and tools that allow responding to business challenges in the transition to sustainability; - Training – open to professionals and employees of companies and organizations, whatever the sector, stage of the journey to sustainability, level of knowledge and maturity in terms of sustainability; - Communication, events and publications – to set the national agenda with regard to sustainability issues and raise awareness among the business community and society.	EDP has been part of the board since 2004. EDP participates in several Working Groups, namely in the Carbon Neutrality GT	Participation in management and secretariat meetings, participation in working groups, Charter of Principles and Journey 2030, events.	10 500,00 €	Yes
