

OKLAHOMA

EDP Renewables is a renewable energy leader in Oklahoma. The company's footprint in the state includes four phases of the Blue Canyon Wind Farm, the Arbuckle Mountain Wind Farm, and the Redbed Plains Wind Farm.

- Counties with Operational Projects
1. Redbed Plains Wind Farm (99 MW)
 2. Blue Canyon I Wind Farm (74 MW)
Blue Canyon II Wind Farm (152 MW)
Blue Canyon V Wind Farm (106 MW)
Blue Canyon VI Wind Farm (91 MW)
 3. Arbuckle Mountain Wind Farm (100 MW)

 **631 MW**
OPERATING IN
OKLAHOMA

EDPR'S OKLAHOMA ENERGY PROJECTS:

-  Generate electricity equivalent to the consumption of more than **139,500 Oklahoma homes**.¹
-  Save more than **1.1 billion gallons of water each year** and prevent the air pollution that causes smog, acid rain, and climate change.²
-  Are compatible with other land uses.
-  Strengthen domestic energy security and help diversify supply.

Economic benefits OF EDPR'S OKLAHOMA PROJECTS

 **\$131.4 million**
TOTAL ECONOMIC IMPACT³

 **\$36 million**
PAID TO LANDOWNERS⁴

 PERMANENT JOBS⁷
55+ jobs created

 **\$44.5+ million**
PAID TO LOCAL GOVERNMENTS⁵

 **\$50.8 million**
SPENT WITHIN OKLAHOMA⁶

 CONSTRUCTION JOBS⁷
661 jobs created

Renewable energy is the future of U.S. energy.

American clean power saw nearly **\$80 billion in investment** and supported 1.4 million jobs in 2024.⁸

About us

EDP Renewables North America LLC (EDPR NA), its affiliates, and its subsidiaries develop, construct, own, and operate wind farms, solar parks, and energy storage systems throughout North America. Headquartered in Houston, Texas, with 61 wind farms, 26 solar parks, and eight regional offices across North America, EDPR NA has developed more than 12,000 megawatts (MW) and operates more than 11,400 MW of onshore utility-scale renewable energy projects. With more than 1,000 employees, EDPR NA's highly qualified team has a proven capacity to execute projects across the continent.

EDPR NA is a wholly owned subsidiary of EDP Renewables (Euronext: EDPR), a global leader in the renewable energy sector. EDP Renewables (EDPR) is a global leader in renewable energy development with a presence in four regions including Europe, North America, South America and Asia Pacific. We have a sound development portfolio of top-level assets and market-leading operating capacity in renewable energies.

Our business encompasses onshore wind, distributed and large-scale solar, offshore wind (through a 50/50 joint venture – Ocean Winds) and complementary technologies to renewables, such as hybridization, storage and green hydrogen.

With 16.5GW deployed across multiple technologies and a €12 billion investment plan up to 2026, we are committed to driving social progress with a particular focus on sustainability and integration. Our employee-centered policies have earned EDPR a listing in the Bloomberg Gender-Equality Index and led to recognition as Top Employer 2024 across Europe, Singapore, Brazil, Colombia and Chile.

EDPR is a division of EDP, a global leader in renewables and the energy transition with over 13000 employees worldwide. The group is committed to becoming coal free by 2025 and all-green by 2030, a global ambition that reflects EDP's role and accelerates its sustainable growth over the longer term. In addition to strong renewable assets, EDP also operates across the globe in electricity networks, client solutions and energy management. The group is acknowledged as the most sustainable electricity company in the Dow Jones Sustainability Index.

¹Power generation calculated using a 35% capacity factor for wind based on 2022 AWEA Wind Powers America Annual Report. Solar power generation is based on power generation calculated using a 25% capacity factor. Household consumption based on the 2023 EIA Household Data monthly average consumption by state.

²Assumes 0.58 gallons of water consumed per kWh of conventional electricity from Lee, Han, & Elgowainy, 2016.

³Includes vendor spending, property taxes, and landowner payments of all operational projects through 2024.

⁴Cumulative landowner payments through 2024.

⁵Cumulative local government payments through 2024.

⁶Cumulative local vendor spending including payments to contractors, suppliers, and service companies, as well as donations through 2024.

⁷Full-time equivalent jobs calculated by dividing number of contractor hours worked during construction by 2080.

⁸American Clean Power Association, Annual Market Report, 2024.

⁹American Clean Power Association, Clean Power State-by-State, March 2025.
